

CSI4133: Project 4

Object detection using motion, color and shape

Due Monday December 6th, 2010 (worth 13% of your total grade)

What to do:

1. Complete laboratory exercise #6:
(<http://www.site.uottawa.ca/~gtell036/CSI4133/lab06/exercise06.docx>
or
<http://www.site.uottawa.ca/~gtell036/CSI4133/lab06/exercise06.pdf>)
2. Create a presentation & demonstration of your solution to be shown during the last lecture session

Grading Scheme:

Marks for the last project will be based on the following elements:

- Your solution's results
- Your solution's implementation
- The quality of your presentation

Does this project have a submitted component?

No; the source code of your implementation does not need to be uploaded to the Virtual Campus.
